Profile Summary

Full Stack Developer focused on building production-ready, scalable web applications and solving real-world problems end-to-end. Hands-on experience delivering complete applications with a strong focus on clean architecture, performance, and user experience

Projects

TaskOwn — Task Management Platform

[Live](#) - [github](#)

React.js · Node.js · Express.js · MongoDB · Mongoose · Tailwind CSS · JWT Auth

- Developed a full-stack task management application using React.js, Node.js, Express.js, and MongoDB with a responsive dashboard and JWT authentication.
- Implemented task CRUD, recurring daily tasks, scheduled tasks, completion, archiving, soft deletion, and protected routes.
- Built RESTful APIs with Mongoose, Axios interceptors, centralized middleware, rate limiting, Helmet, compression, and an automated missed-task catch-up system.

NoteBox — Note Management Platform

[live](#) - [github](#)

React.js · Vite · Tailwind CSS · Node.js · Express.js · MongoDB · JWT Auth · Axios

- Developed a full-stack note management application using React.js, Node.js, Express.js, and MongoDB with a responsive, modern UI.
- Implemented JWT authentication, protected routes, user management, and secure REST API integration using Axios.
- Built note CRUD, search, organized note handling, reusable React components, modular APIs, and centralized API handling with user notifications.

CareHive – Home Nurse Management Application

In progress

React · TypeScript · Tailwind CSS · Supabase · Node.js · Express.js

- Developing a MERN-based platform that helps patients find and hire nurses for short-term or multi-day home care services.
- Building secure user authentication, nurse profiles, service management, and booking workflows with a focus on real-world healthcare service coordination.
- Planning integrations for online payments, real-time notifications, and basic AI-assisted features to improve the hiring and management experience.

Technical Skills

Languages: JavaScript (ES6+), HTML5 , CSS

- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MySQL , MongoDB , Firebase Firestore
- **Frontend:** React.js, Tailwind CSS, Vite, JavaScript DOM
- **Tools:** Git, GitHub, Docker, Redis, Supabase, Postman, Render
- **Core Concepts:** Authentication & Authorization, Role-Based Access Control (RBAC), Database Design, MVC Architecture , 3-tier /layered architecture .

Education

Devi Ahilya Vishwavidyalaya, Indore

Jul 2023 – Jun 2026

Bachelor of Computer Applications (BCA) — CGPA: 6.8/10
